Munish Halai

Software Developer

hmunish5@gmail.com

+91 9833631091

Mumbai, India

Profile

Software development engineer passionate about creating clean, accessible code, with expertise in JavaScript, REST API, databases, system design (LLD & HLD), and software design patterns. Proficient in frameworks like Angular and Nest.

Employment History

Software Development Engineer at Fourth Pointer Services Private Ltd, Noida

02/2024—Present

- Built modular, responsive single-page applications in Angular, emphasizing maintainable code through DRY, SOLID, and YAGNI principles. Applied skills in Angular, NestJS, Laravel, and Vue to create efficient, applications.
- Designed and integrated Restful API to ensure efficient client-server communication.
- Created, updated, and optimized database schema and conducted CRUD operations in MySQL and MongoDB.
- Collaborated in client management and requirement analysis.
- Applied logical problem-solving and analytical skills to debug, test, and resolve complex issues.

Education

Diploma, Electrical and Electronics Engineering, The Polytechnic University Of Malawi (City & Guilds Of London Institute), Blantyre

- Gained adaptability by studying in a multicultural environment, embracing new perspectives and practices.
- Built a solid foundation in problem-solving and analytical skills, essential for real-world engineering challenges.

Bachelor of Science, Information Technology, ISBM University

- Studied core computer science and software development principles, with a focus on web development technologies, databases, and engineering mathematics.
- Gained strong skills in data structures, algorithms, and complex problem-solving.
